

ANTICA TORINO

BITTER BIANCO

One of the latest creations of Vittorio Zoppi and Filippo Antonelli, an innovative and artisanal **Bitter Bianco** to compete with the corporate world of spirits.

In mixology the purpose of bitters is to balance out the taste of a cocktail. Cocktails primarily contain sweet and sour flavors, by adding another primary taste, bitter, into mixed drinks, a cocktail is given a more complex, and complete, flavor profile.

Antica Torino Bitter Bianco is a brilliantly translucent bitter bianco and aperitivo. Bright citrus aromas and fresh herbs are followed by vivid flavors of zests, resins and flowers. Among the many ingredients are cinnamon, wormwood, orange zest, saffron, myrrh and aloe. The recipe is the result of many attempts and tastings which stretched for quite some time and resembles a family's recipe from the 50s. Enjoy this sunshine-hued spirit neat on the rocks or in classic cocktails.
